Exporters Association**

Paket ünite olarak imal edilmektedir. Elektrik, yakıt, su yumuşatma ve tüm tesisat donanımları ile imal edilmektedir. Her yakıtı uygun (motorin, fuel-oil, gaz, lpg vs.) olarak üretilebilir. Seyyar bir ünitedir, konteyner içinde olduğundan, istenilen yerlere taşınarak, zor şartlarda da problemsiz kullanılabilir. Konteyner içerisinde özel dizayn edilmiş jeneratör ve kazanlar sayesinde çok kısa zamanda yüksek verimli buhar, kızgın yağ, kalorifer ve kullanma suyu ihtiyaçlarınıza derhal cevap verir. Değişik ihtiyaçlara göre de özel dizayn yapılır.

*It is manufactured as a package unit that includes electricity, fuel, water softening and all installation equipment and supports every fuel type (diesel, fuel-oil, gas, lpg, ...). It is also a portable unit since it is a container and can be transported to desired places and used in difficult conditions. Thanks to the specially designed generators and boilers inside it, it immediately responds to your high efficiency steam, hot oil, heating and utility water needs in a short time. Other unique needs can also be met with custom designs.*

Tüm tesisat bağlantıları tek noktadan çıktığından kullanımı, montajı ve bakımı çok pratiktir. Konteynerler kullanılan ekipmanlara göre özel olarak dizayn edildiğinden çok sağlam, kullanışlı ve uzun ömürlüdür. Küçük boyutlarda, iç kullanımı işletmecilerin rahat hareket edebileceği şekilde dizayn edilmiştir. Ön kapak komple açılabilir şekilde imal edilmekte olup, bakımı ve tamiri çok kolaydır.

*As all plumbing connections come from a single point, it is very practical to use, install and maintain. The structure of the unit very robust, functional, compact, long-lasting and made to fit the equipment used. The front cover is manufactured in a way that can be opened completely, and it is simple to maintain and repair.*
